Since 2007, making life easier

Novaf was founded in mid-2007 with the goal of making life easier for people with mobility challenges, driven by the belief that anyone who wishes to participate in any activity can and should be able to do so.

In response to this need, we develop products designed to improve quality of life, especially during leisure time, for people with reduced mobility as well as their family and friends.

OCEANIC ATLANTIC AMPHIBIOUS CHAIR

The World's Lightest Amphibious Chair

The **Oceanic Atlantic Amphibious Chair** allows people with reduced mobility to safely access beaches, pools, and aquatic areas. Corrosion-resistant and easy to manoeuvre, it's ideal for an inclusive experience. Its ergonomic structure provides optimal comfort and support.

	180 cm length		120 cm width
	105 cm height		23 Kg weight
		125 Kg load capacity	

OCEANIC ATLANTIC XXL AMPHIBIOUS CHAIR

The **Oceanic Atlantic XXL Amphibious Chair** is sturdy, detachable, and lightweight, ideal for people with reduced mobility who want to safely access beaches and pools. It is easy to manoeuvre on sandy and aquatic terrain.

OCEANIC ATLANTIC XS AMPHIBIOUS CHAIR

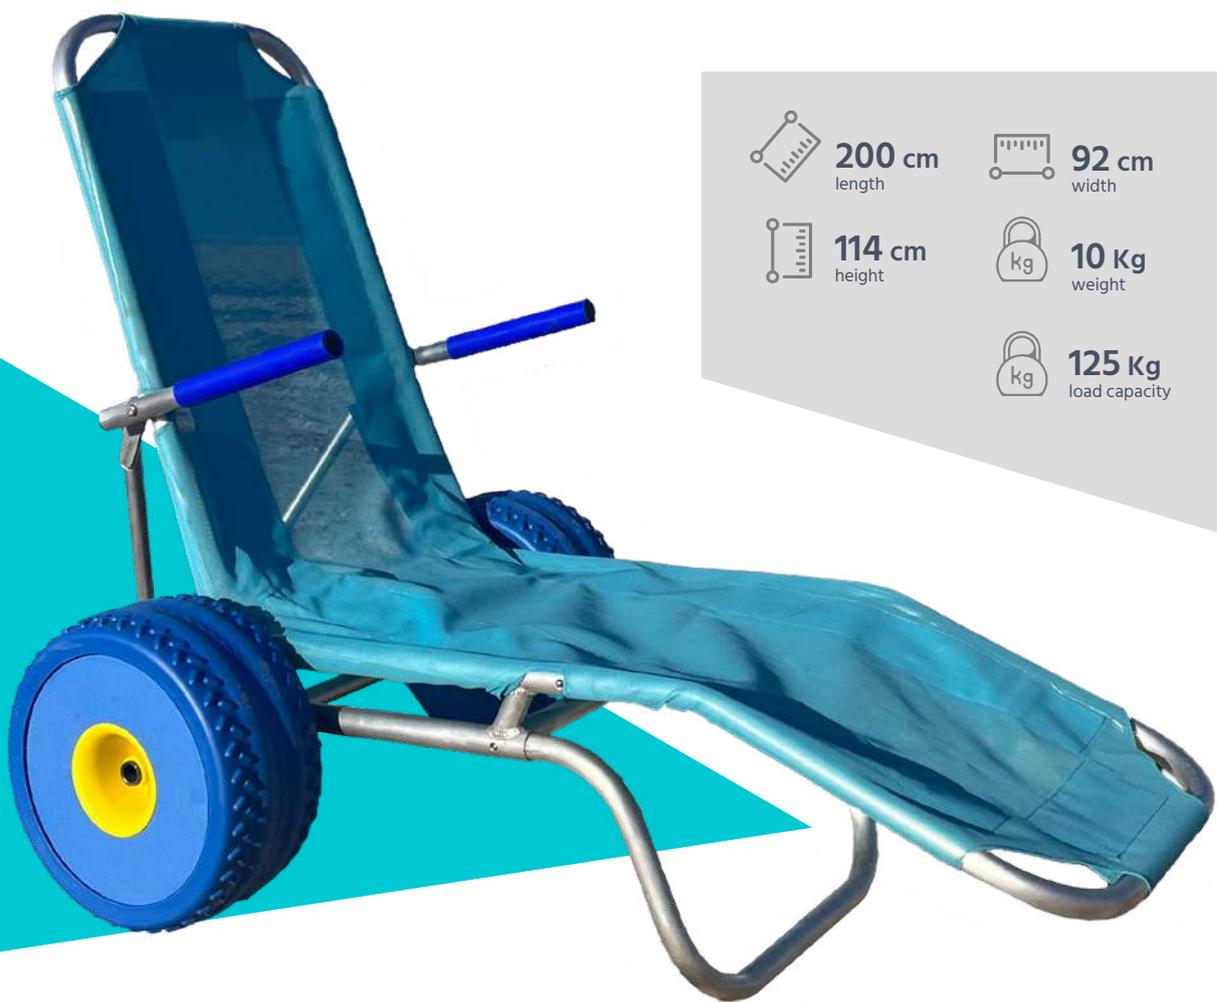

The **Oceanic Atlantic XS Amphibious Chair** is designed to allow young users with reduced mobility to safely access beaches and pools. It is comfortable, secure, and easy to use on sandy and aquatic terrain.

 147 cm length	 80 cm width	 65 Kg load capacity
 100 cm height	 15 Kg weight	

OCEANIC SUN BEACH LOUNGER

The **Oceanic Sun Beach Lounger** is the best lounge chair on the market adapted for people with reduced mobility. It features a seat height of approximately 19" from the ground and offers excellent stability. Additionally, it is fully foldable for easy transportation and storage. It is comfortable and easy to manoeuvre.

OCEANIC COMFORT

OCEANIC COMFORT is a lounger for the beach, pool, or simply sunbathing. It makes the transition from a wheelchair to the lounger more comfortable thanks to its seat height, width, adjustable backrest, and stability.

NOVAF EASY

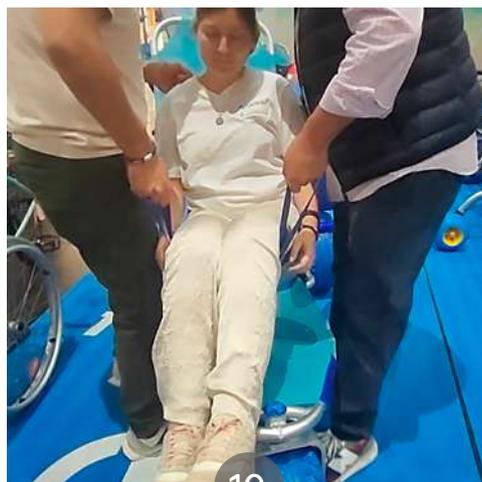

What is **Novaf Easy**? It is a device that allows for transferring a person in a seated position from a wheelchair to another seat, without the need to hold them by their arms or legs.

 15 cm

ROLLATOR WALKER "CITY BEACH"

The **ROLLATOR WALKER "CITY BEACH"** is a rollator designed for the beach, countryside, and areas with uneven or sandy terrain. Made of corrosion-resistant aluminium, the **ROLLATOR WALKER "CITY BEACH"** is comfortable, safe and appropriate for difficult terrain.

 90 / 103 cm height	 80 cm length	 78 cm width
 14 Kg weight	 150 Kg load capacity	

ROLLATOR WALKER “CITY BEACH PLUS”

The **ROLLATOR WALKER “CITY BEACH”** is an update of the **ROLLATOR WALKER “CITY BEACH”** model.

The **Plus** version has more compact dimensions and a solid seat, not a fabric one.

 85 / 97 cm height	 80 cm length	 78 cm width
 14 Kg weight	 150 Kg load capacity	

ROLLATOR WALKER “BEACH XL”

The **ROLLATOR WALKER “BEACH XL”** is made of aluminum, stainless steel, and PVC.

The **ROLLATOR WALKER “BEACH XL”** features puncture-free wheels, is foldable for easy storage, and adjustable in height for personalized comfort.

	100 / 87 cm height to grip		
	90 cm width		90 cm length
	46 cm wide seat		59 cm seat height
	14 Kg weight		150 Kg load capacity

ROLLATOR WALKER "VINTAGE"

The **ROLLATOR WALKER "VINTAGE"** allows you to walk on uneven terrain with greater stability and reliability than a regular wheeled walker.

controls.

AMPHIBIOUS CRUTCHES

These Amphibious Crutches crutches can also be used in water, as they are made of aluminium, which resist the abrasive nature of the sea, preventing corrosion. Additionally, they are filled with a special material that ensures buoyancy.

Measures: **69 cm** **74 cm** **79 cm** **85 cm** **89 cm**

LIFE VEST

Designed to keep a person afloat with their airways out of the water, even if they cannot swim or are unconscious.

Adults and children
medidas

The background of the page is a dark blue-grey color with a faint, semi-transparent image of a robotic arm. The arm is positioned diagonally, with its joints and segments visible. The lighting is soft, highlighting the metallic and plastic components of the arm.

"Freedom to enjoy, without limits: Equipment designed for everyone to live every moment to the fullest."

SCOOTER "ARIZONA"

4-WHEEL ELECTRIC VEHICLE

Very easy to handle, very comfortable and safe. The Scooter "Arizona" has 4 wheels and 18 cm wide tires, allowing the vehicle to travel comfortably over uneven surfaces such as loose sand, cobblestone paths, and fields.
